- You must have a signed permit in your possession while you are burning and you are responsible for maintaining control of your fire at all times.
- Possession of a permit does not protect you if your burn escapes. You are still liable for any suppression costs.
- If a burn escapes your control, you should seek help immediately. Wildfires can spread very quickly. A fast response from the fire department can reduce suppression cost considerably. Remember, you may be billed for suppression costs, so the sooner you seek help the better the outcome may be.
- Simple common sense can greatly reduce the chance of an escape. If you don't feel it's safe to conduct a burn, then don't!

Changing conditions may necessitate an early burn suspension. Please keep informed about burn restrictions by visiting our website at www.fire.ca.gov/lmu under “Hot Topics”. For more tips on preparing for fire season, visit www.readyforwildfire.com.
